Berkeley, California, USA

## OBJECTIVE

I am eager to apply my engineering design, creative problem solving, and technical writing skills as well as my enthusiasm to empower others to live to their full potential. I enjoy taking on new challenges and developing innovative solutions.

## EDUCATION

**University of California, Berkeley**

Aug. 2016 – May 2020 (Expected)

*B.S., Mechanical Engineering*

- **GPA:** 3.68/4.00
- **Relevant Coursework:** Global product development; orthopedic biomechanics; bioinspired design; dynamic control systems & feedback; aerodynamics (current); mechanical behavior of engineering materials; planar machinery design; engineering dynamics; fluid mechanics; solid mechanics; thermodynamics; circuitry.

## SPECIAL SKILLS

**Design/Modeling:** SolidWorks, AutoCAD, Rhino, GD&T dimensioning and tolerancing, FEA, DFM, DFS, 3D printing, machine shop skills (end mill, lathe, etc.), soldering, laser cutting, water jet cutting.

**Programming:** MATLAB, Python (basic), LaTeX, HTML, CSS.

**Writing/Communication:** Business plan author, essay-writing teacher (high school level), team policy debater.

**Languages:** English (native), French (intermediate), German (beginner), Serbo-Croatian (beginner).

## TECHNICAL EXPERIENCE

**SuitX**, Emeryville, California

May 2019 – Present

*Engineering Intern*

- Independently designing exoskeleton solutions that fit all body sizes for heavy lifting.
- CADding (in SolidWorks), FDM 3D printing prototype models, and performing user testing.
- Conducting SolidWorks FEA on all components and performing physical testing until failure.

**Berkeley Expert Systems Technologies (BEST) Lab**, UC Berkeley, CA

Sept. 2018 – May 2019

*Research Intern, Drumming Prosthesis Project under Professor Alice Agogino*

- Design cost-effective drumming prosthetic for transradial amputees with team of 6 MEng and PhD students.
- Analyzed data of drummer surveys to establish design criteria.
- Designed adaptable, adjustable drumstick-spring holder for arm lengths for body-powered prosthetic.
- 3D printed body powered prosthetic parts using BioFlex and PLA on FDM 3D printers.

**Human Powered Vehicles Team**, UC Berkeley, CA

*Co-President, Frame Subteam Lead*

May 2018 – Aug. 2019

- Bike goal: design, manufacture, and race a bike at 70mph at the international IHPVA WHPSC competition.
- Coordinated overall design of bike and lead design of bike frame in 5-person subteam.
- Performed SolidWorks stress and deformation simulation tests on SolidWorks bike assembly CAD.
- Created physical wood and PVC pipe prototypes of bike to mimic welded metal frame.

*Member, Fairing Subteam*

Aug. 2017 – Mar. 2018

- Designed and 3D modeled aerodynamic tricycle fairing in SolidWorks and Fusion 360 in team of 5.
- Analyzed aerodynamic fluid flow of fairing 3D models in ANSYS.
- Performed carbon fiber lay-ups to create frame and fairing of vehicle.
- Vehicle won 3<sup>rd</sup> place overall, 2<sup>nd</sup> place Design Award, and the Craftsmanship Award out of 18 teams at ASME's E-Fest Human Powered Vehicle Challenge.

**Applied BioMechanics, Alameda Island, CA**

May 2018 – Jan. 2019

*Engineering Associate in Accident Reconstruction Simulation*

- Simulated vehicle collisions in HVE (an accident dynamics simulation program) using my 3D models.
- Laser scanned collision sites and vehicles and created 3D models of the scans in Rhino for 30+ court cases.
- Performed some manual mechanics and dynamics calculations to back simulation results.
- Prepared court exhibits based on analysis for Dr. Cheng's and Dr. Doehrty's expert witness testimonies.

**EnableTech, UC Berkeley, CA**

Jan. 2018 – May 2018

*Member, Quadriplegic Gripper Project Team*

- Designed and laser cut mechanical, cost-effective gripper in interdisciplinary team of 5 for quadriplegic user without grip strength to pick up objects from floor and shelf.
- 3D modeled hand grip for device in SolidWorks.

**Berkeley Emergent Space Tensegrities (BEST) Lab, UC Berkeley, CA**

May 2017 – Nov. 2017

*Research Intern, 6-Bar Tensegrity Robot Project under Professor Agogino*

- Designed, 3D modeled (Autodesk Fusion 360), 3D printed, and directed final production of end caps with improved durability and frictionless cable movement for 6-bar spherical tensegrity robot intended for search and rescue and as rover for Jupiter's moon Titan.
- Produced end cap dimension drawings in AutoCAD.
- Worked on overall 6-bar tensegrity robot design in team of 3 Ph.D. students and 3 undergraduate students.
- Soldered and assembled over 48 motor control circuit boards for 6-bar tensegrity robot.

**LEADERSHIP & ACTIVITIES****Human Powered Vehicles Club, UC Berkeley, CA**

Apr. 2018 – Aug. 2019

*Co-President*

- Manage all club operations and events (outreach, project management, resource management, overall timeline and scheduling, faculty sponsor coordination, subteam progress, sponsor relations, etc.).
- Create club budget, manage club expenses, and collaborate with sponsors (such as General Motors or Ford).
- Organize, schedule, and follow up on all team activities (subteam progress, sponsor relations, outreach, etc.).

**Society of Women Engineers, Berkeley, CA***Career Options Committee Member*

Jan. 2018 – May 2018

- Organized, facilitated, and coordinated Technical Writing panel with Sandia National Labs representatives and Academia Panel with three UC Berkeley engineering professors (audience of approximately 25 per event).

*Committee Member of the Month (March 2017), Shadow an Engineer Committee Member*

Jan. 2017 – May 2017

- Coordinated externships with 13 major companies, including AutoDesk.
- Created and evaluated applications for externships, selecting 30 out of the 60 applicants.

**Pioneers in Engineering (PiE), UC Berkeley, CA**

Jan. 2017 – May 2017

*Robotics Competition Team Mentor*

- Mentored team of 10 El Cerrito High School students over 8 weeks for PiE robotics competition.
- Guided team's game strategy and analysis, robot design process, and building of actual robot.
- Awards team earned: 2nd place team, PiE Season Award, Software Award finalist.

**Women in Science and Engineering, UC Berkeley, CA**

Aug. 2016 – May 2017

*Conference Committee Member*

- Organized and created schedule for all-day, 200-person STEM conference in 15-person team.
- Introduced National Inventor's Hall of Fame inductee and led Q&A session at conference.
- Received and coordinated speakers at conference.
- Designed event website with WordPress.
- Publicized conference through announcements at 100-600 person classes.
